OBJECTIVE

Looking for an opportunity to contribute my skills in software development while learning and growing with a forward-thinking organization. I'm eager to take on challenges, work on impactful projects, and add value through my technical expertise and dedication

SKILLS

Java, Python, Data Structures and Algorithms, HTML, CSS, JavaScript, Angular, Spring Boot, MySQL, Git, GitHub, Postman, Prompt Engineering.

PROJECT UNDERTAKEN

Parking Space Finder Web App (Domain project):

A web-based application that helps users efficiently find and reserve parking spots. Features include real-time availability, seamless booking, and payment integration.

Technologies: Angular (Frontend), Spring Boot (Backend), MySQL (Database)

Deployed At: <https://parking-finder-app.vercel.app/>

Personal Portfolio Website

A professional website showcasing skills, projects, and experience as a software developer. Features a clean, responsive design and an intuitive user interface.

Technologies: Angular

Deployed At: <https://rokkam-divya.vercel.app/>

EDUCATION

B. Tech | Centurion University of Technology and Management | 2022-2026 Bachelor Degree in Computer Science Engineering with 9.4 CGPA (3rd Year).

Class XII (Science with Math) | Odisha Adarsha Vidyalaya | Allada, Odisha | 2022 Passed Higher Secondary with 69%.

Class X | Sri Jagannath High School | Sidhamadanga, Odisha | 2020 Passed Matriculation with 80%.

INTERNSHIP

Web Development Intern

OCTANET SERVICES PVT LTD | October 1, 2024 – December 1, 2024

- Focused on front-end development to craft visually engaging web applications, achieving pixel-perfect designs with zero reported UI bugs.
- Delivered dynamic interfaces using HTML, CSS, and JavaScript, meeting project deadlines two weeks ahead of schedule and exceeding client expectations.

Full Stack Development Intern

MicroIT SERVICES PVT LTD | May 12, 2025 – June 12, 2025

- I have completed a Full Stack Web Development project using both frontend and backend technologies. The frontend was developed with Angular, while the backend was built using Spring Boot.
- Languages commonly used for full stack development include HTML, CSS, JavaScript, TypeScript, Java, Spring boot, SQL and Angular.

ACHIEVEMENTS

Data Structures & Algorithms for Placements (CodeTantra)

INTERESTS

Web Development, Front-End Development, Web UI Design, Learning New Technologies, Painting.
